

WonderMicrobes is a multi-culture concentrate available in liquid form. It is composed of over twenty select microbial cultures and enzymes designed to bioremediate almost all fractions of crude or modified petroleum products and paraffin wax. They are also effective on animal and vegetable oils and fats.

Powerful surfactants in **WonderMicrobes** break the hydrocarbons into minute molecules. The microbes then attach themselves to the contaminants and reduce them to carbon dioxide and water. The microbial cultures continue enzyme production until all oil contaminants and other organic wastes are consumed. WonderMicrobes is non-toxic, non-caustic, non-corrosive, non-pathogenic (harmless) and is biodegradable.

EQUALLY SUCCESSFUL FOR CRUDE
 PETROLEUM, LUBRICATING OIL, GASOLINE AND DIESEL SPILLS
 SHORTENS CLEAN-UP TIMES FOR OIL SPILLS AND STAINS
 CLEANS OILY EQUIPMENT, VEHICLES AND TOOLS
 CLEANS UP SPILLS FROM HYDRAULIC BRAKE LINES AND EQUIPMENT FAILURES
 CONTAINS NO PETROLEUM DISTILLATES OR SOLVENTS
 CONTAINS ESSENTIAL MICROBIAL NUTRIENTS AND OXYGEN CATALYSTS
 ENHANCES BIODEGRADATION ABOVE AND BELOW GROUND SURFACE, WHEN USED AS RECOMMENDED.
 ECONOMICAL AND ECOLOGICALLY SOUND
 ELIMINATE REMOVAL AND REPLACEMENT OF CONTAMINATED MATERIALS

Instructions for Use

WonderMicrobes are shipped in component kit form. Remove components from pail and put 4.5 gallons of water into pail. Mix in the 3 surfactants in order on the labels (1-2-3). Stir in the powder thickener/microbe pack. Top off the pail at the 5 gallon mark. Allow the mixture to sit for one hour or overnight before use.

Shake or mix thoroughly before dispensing. If using spray equipment use a low pressure system with a larger tip.

Precautions/Limitations: Read and follow precautions on MSDS. Pretest new equipment finishes by applying to a small area first. Optimal performance is on damp surfaces. Keep surface moist during remediation.

CONTENTS
6 KITS 30 GALLONS

STORAGE

WonderMicrobes should be stored between 10°-40°C (50°-104°F). Avoid prolonged exposure to higher temperatures. Keep from freezing.
